

Belchim Crop Protection technológiai ajánlata napraforgóban

Állomány szárítás	FIGARO 2 -5 l/ha
Gyomirtás (kelés előtt)	NUFLON + kombinációs partner 1,5-2 l/ha
Vetés előtt	 <p>The diagram shows the growth stages of a sunflower from sowing to maturity. It starts with three seeds at BBCH 00, followed by a seedling at BBCH 10, and then a series of plants at BBCH 12, 14, 18, 59, 65, 79, and 89. The plants are shown with their roots and leaves, and the final stage (BBCH 89) shows a fully developed sunflower head.</p>
